

CURRICULUM VITAE

BEN CHAPUMA(MR)

A. PERSONAL PROFILE

Ambitious and enthusiastic student pursuing a bachelor's degree in Electronics and Computer Engineering at the Malawi University of Business and Applied Sciences (MUBAS). Over 4 years of performing various tasks in Microsoft office, basic programming in HTML, CSS, C++ and Python as well as acquiring good communication and presentation skills. Eager to apply knowledge learnt into real life situations and gain more knowledge of how to tackle different challenges and create better solutions.

B. CAREER OBJECTIVE

To gain hands-on experience in handling real-life data and assist in the process of developing systems that work on improving everyday activities at work place and in the modern society.

C. EDUCATIONAL BACKGROUND

2015-2019, Malawi School Certificate of Education (MSCE), Chipasula Secondary School

Expected Graduation: 2026, Bachelor of Electronics and Computer Engineering, Malawi University of Business and Applied Sciences (MUBAS)

D. GENERAL SKILLS

- Working with windows OS
- Working with Microsoft Office (Word, Excel, PowerPoint)
- Using Google services (Sheets, Docs, Meet, Drive, Slides)
- Data analysis (SPSS, MATLAB)
- Basic programming in HTML, CSS, C++, and Python
- Using GitHub
- Excellent Interpersonal skills
- Public Speaking
- Presentation Skills

E. EXPERIENCE

Intern at MUBAS KAI Lab (September 2023 to May 2024)

Duties:

- Data analysis
- Research assistant
- Conducting surveys involving physical data collection
- Tool testing using Machine Learning (ML) and Artificial Intelligence (AI).
- Data translation between English and Chichewa
- Conducting dissemination and awareness sessions
- Any duties assigned.

Class Projects (1st year to 4th year)

- Developed a synchronous counter using a 555 timer in Digital Electronics.
- Developed a Robotics Hub for the Robotics Foundation in Introduction to Software Engineering to be used for E-learning.
- Designed various programs in C++ using basic algorithms in Object Oriented Programming (OOP).
- Designed a Soil Monitoring System to monitor soil moisture and pH using ESP32 microcontroller in Microprocessor Technology.

F. LANGUAGES

- English
- Chichewa

G. EXTRACURRICULAR ACTIVITIES

- Learning languages
- Physical exercises
- Listening to podcasts
